# THE HUNTING

Sinalopato's combination dove & duck hunts start with a morning dove hunt, then break for lunch and a siesta, and duck hunting in the afternoon. Dove hunting in Los Mochis is fast and furious and the hunting spots are as close as an 18 minute drive from the hotel! Hunters, their guides and bird boys are taken to fields where they pass shoot huge flocks of doves as they fly into the area to feed. Mourning doves are bagged from daylight till mid-morning and White-wing doves start flying around 8-9:00am. There is a good reason we call our dove outings "Hot-Barrel Hunts," there are a ton of doves here! The afternoon duck hunts use airboats that whisk you at high speeds to your duck blind. Flying just over the top of the water, you'll be astonished by the variety of ducks of this spectacular hunting paradise. Once you are in your blind, the airboats are used to keep the ducks flying and decoying into your spread. After the first box of shells, you'll start calling your shots. There is that many ducks to shoot at!
